

COMPUTER-AIDED QUALITATIVE RESEARCH ASIA

3 & 4 February 2010, Kuala Lumpur

About the workshop:

After two very successful CAQR workshops in Europe, Merlien Institute will be holding the 1st Asian edition of the Computer-Aided Qualitative Research workshop in Malaysia. This unique, highly interactive and cross-disciplinary event will bring together senior researchers, practitioners and students to discuss the key issues and best practices on the use of software in qualitative research.

Programme highlights:

This workshop will provide excellent opportunities for delegates to learn and network with international experts. The programme format will consist of a pre-workshop seminar, submitted (reviewed) presentations, poster presentations and an interactive panel discussion. Presentation topics will include:

- >Choosing the right software for qualitative research projects
- >Collaborating effectively in a web based team using design tools
- >How to use qualitative software to perform participatory analysis?
- >Using open-source CAQDAS tools: a qualitative research study in India
- >Comparing major qualitative software tools: strength and shortcomings
- >How to demonstrate and report the use of software tools in studies?
- >>Exploring new techniques of analysing photos and media files using software
- >Training students to use qualitative analysis software tools effectively
- >Selecting appropriate software tool for different types of studies and disciplines
- >How to make use of software to enhance efficiency of doing qualitative analysis
- >Applying computer-assisted qualitative data analysis in grounded theory analysis

International experts willing to share their knowledge include:

Dr Susanne Friese, *CAQDAS Trainer and Lecturer* - University of Hannover (Germany)
Prof Raewyn Bassett, *QDA Expert and Professor* - Dalhousie University (Canada)
Dr Michael Jones, *Lecturer, Faculty of Commerce* - University of Wollongong (Australia)
Dr Vignesh Ilavarasan, *Assistant Professor Social Science* - Indian Institute of Technology
Dr David Kirkham, *Managing Director* - Calistro Consultants Ltd (United Kingdom)

Take advantage of this unique opportunity to discuss best practices with your peers in a friendly, fun and informal networking environment. This two-day workshop includes all documentation and lunch on both days.

Special Discount for QRAM members: Limited number of discount coupons **worth €100** is available to QRAM members. To take advantage of this offer, please register online using the discount code **qram001**
